# Shade

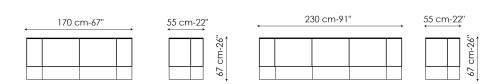

A 70s inspired graphics for this sideboard. The doors are distinguished by a pattern that makes the sideboard an almost artistic object that can be used to furnish and decorate both living rooms and bedrooms. To make the overall view appear lighter, Shade is suspended from the ground thanks to a metal base and its sides are elegantly bevelled to soften its edges. Thanks to its decorative design and to the peculiar iridescent background

of the doors, the Shade sideboard has a design approach with an architectural matrix and is able to create original visual games wherever it is positioned: from the living room to the entrance hall, from the study to the dining room. An element of definite impact, ideal for the furnishing of environments with contemporary taste.
