Design and inspiration

The Subas rug collection includes five subtle, monochrome designs by Sebastian Herkner, who experimented with mixing structures and weaving techniques. Each pattern plays with gentle contrasts, which are emphasised by the different pile heights of the hand-woven piece – a stunning showcase of Colombian weavers' artful craftsmanship. With their understated, yet intriguing aesthetic the rugs lend themselves for adding soft textures to any room.

About the designer

German designer Sebastian Herkner is a long-term collaborator of ames and has visited Colombia multiple times to experience the country's cities, nature and people first hand. He also visited many of the ateliers that ames has partnered with to learn about the unique traditional crafts of Colombia's regions. A sought-after contemporary designer and recipient of many industry awards, he has worked with many international design brands, creating intriguing pieces that showcase his intuition for interesting material, colour and texture combinations.

Craft and manufacturing

Each rug is manufactured in family-run workshops located in Suba, a suburb of Colombia's capital Bogotá. The techniques the craftspeople use to process the sheep wool have been handed down from generation to generation over hundreds of years. Alone the preparation of the wool takes three days, while the artesanos and artesanas work 15 days on producing the final rug.

Care instructions

Some shedding will occur when vacuuming the rug, especially in the beginning. We recommend cutting loose threads with a scissor or pull them in with a crochet needle. Vacuum rug regularly on a low suction setting to prevent lint buildup. To protect the colours, avoid exposing the product to direct sunlight over long periods and change its position regularly so the colours age evenly. We also recommend using an anti-slip underlay to reduce dust collection. Only use a professional rug cleaning service for the entire rug. Each rug is woven by hand, so the dimensions and can vary minimally. Do not alter it yourself, as this could damage the knotting.
